

Md Sakib

AI Automation Expert · AI Agent Developer · n8n Workflows · LLM & API Integration

+880 1825-264227 | mdsakibahmed848@gmail.com | github.com/mdsakib-dr | LinkedIn | Dhaka, Bangladesh | Remote

Professional Summary

AI Automation Expert and AI Agent Developer who builds intelligent workflows for real businesses. Designs AI agents and end-to-end automation on n8n, integrates LLM APIs (OpenAI, Claude, DeepSeek), and connects business tools — CRMs, Google Workspace, Meta/Graph APIs, and messaging platforms — through REST APIs and webhooks. Specializes in customer-support automation and lead-management systems, with reliable, self-running pipelines built on a Python/FastAPI backend.

Technical Skills

AI Automation	n8n (scheduled, event-driven, multi-step, conditional), webhook pipelines, business-process automation, error handling, retry/fallback
AI Agents & LLMs	AI agents & tool-calling, FastMCP, custom MCP tool servers, OpenAI, Claude, DeepSeek APIs, RAG, prompt engineering
API & Integrations	REST APIs, CRM integration, Facebook/Meta Graph API, Google Sheets & Workspace APIs, Gmail API, Ahrefs API, GA4, OAuth / Bearer / App Passwords
Backend	Python, FastAPI, SQLAlchemy (async), PostgreSQL + pgvector, JWT auth, WebSockets
Customer Support AI	Multi-tenant support platforms, per-channel AI auto-reply, human-takeover, knowledge-base (RAG) grounding
Languages & Tools	Python (primary), JavaScript/TypeScript, SQL, Docker & docker-compose, Git/GitHub, Postman

Professional Experience

AKIJ iBOS — Dhaka, Bangladesh

May 2026 – Present

Associate Developer

- Contributed backend/automation and frontend to **ChannelSync** — a unified omnichannel (voice + message) customer-support product: speech-to-speech, MCP-native, BYOK across OpenAI, Claude, and other LLMs.
- Built AI automation on n8n for real business processes across marketing and other teams — automating lead handling, reporting, and publishing end-to-end and replacing hours of manual work with self-running pipelines.
- Integrated LLM outputs with live business tools (CRM, Google Sheets, Gmail) via REST/Graph APIs, with error logging, output validation, retry/fallback, and reusable integration components.

Key Projects

AI Automation & Lead Management (n8n)

Meta Ads Lead-Capture & CRM Automation — All Company Pages n8n · Graph API · Google Sheets · CRM

- Built webhook-driven lead management across all Meta (Facebook/Instagram) lead-gen pages: verifies the handshake, ACKs instantly, fetches lead data from the Graph API, normalizes, dedups, and pushes each lead into Google Sheets and the internal CRM — with retry/fallback on every call.

AI-Powered Daily Ads Reporting Digest n8n · Meta Ads API · Google Ads API · LLM-DeepSeek · Gmail API

- Automated a scheduled Meta + Google Ads digest fetching live metrics, running DeepSeek analysis with strict anomaly thresholds, and auto-emailing an executive summary — guarded by a check flagging runs with no live tool data.

AI Agents & Tool Servers (MCP)

WordPress MCP Server

[Live Endpoint](#) · [GitHub](#)

FastMCP · WordPress REST API · Application-Password auth · Prefect Horizon deploy

- Built a remote MCP tool server exposing draft / publish / update / search actions that let any LLM agent (incl. Claude) perform multi-step tasks on a self-hosted WordPress site — no plugins, secure auth.

SEO MCP Server

[Live Endpoint](#) · [GitHub](#)

FastMCP · Ahrefs API · GA4 · Prefect Horizon deploy

- Built an MCP tool server that fetches GA4 analytics and Ahrefs SEO data via API and exposes it as callable tools, giving LLM agents on-demand access to live business metrics.

AI Customer-Support Platform

social_bot — Multi-Tenant AI Customer-Support Platform

[Live](#) · [GitHub](#)

FastAPI · PostgreSQL + pgvector · OpenAI · Next.js / React · WebSocket · Docker

- Built a multi-tenant AI customer-support platform where businesses connect messaging Pages and per-page AI agents auto-reply from a real-time inbox with human-takeover, grounded by a per-agent RAG knowledge base (embeddings + pgvector retrieval).

Education & Achievements

ZNRF University of Management Sciences, Dhaka

Jul 2022 – Jul 2026

B.Eng. in Computer Science & Engineering | Top 5% of batch | ZNRF Trust Scholarship recipient

ICPC Dhaka Regional 2023 — Rank 147 among 300+ teams | **General Secretary**, ZUMS Student Forum (2025) | **Executive Member**, BASIS Student Forum
